

NEWS RELEASE

Revolabs Partners With Hitachi, Crestron, and AVTEQ

Revolabs Unique Wireless Microphone Systems Enhance Partner Solutions

ORLANDO, Fla. (June 17, 2009) – Today at InfoComm09 Booth #6321, Revolabs announced that three premier providers of conferencing technology products for education and business collaboration have certified Revolabs as a partner in their value-added solution programs.

Revolabs has become a member in the Hitachi Certified Solution Program and the Crestron Certified Integrated Partner Program. The Revolabs Classroom™ Voice Amplification System has been tested and certified to work with the Hitachi Home Electronics (America), Inc., Business Group line of professional-grade, 3LCD projectors that address a variety of applications, including education, houses of worship, boardrooms, small office/home office, government and performance spaces. Revolabs becomes the first audio component to be certified with the Hitachi projectors.

Crestron has certified the Revolabs Solo™ Executive and Executive HD™ Wireless Microphone Systems with the Crestron advanced control and automation systems for audio, video, computer, IP and environmental systems. The new Revolabs Executive HD Systems have many extended network capabilities, such as the ability to be integrated easily with Crestron products, and a client program to help manage such connections.

Additionally, AVTEQ, Inc., has opted for Revolabs products to ensure the audio quality, performance and versatility of their packaged solutions affords the best possible conferencing experience. AVTEQ has custom-designed several rack-mounted drawer accessories specifically to hold the Revolabs Wireless Microphone Systems, including the unique plug and play Revolabs Fusion™ System. AVTEQ's Revolabs Shelving System can be seamlessly incorporated into any standard 19" rack mount space, allowing for all videoconferencing equipment to be completely integrated onto one sleek mobile cart or an existing a/v equipment rack.

"Revolabs' flexible wireless audio solutions are being used in countless demanding applications around the world where high quality audio is needed. Working with industry leaders to supply great solutions to the market underscores Revolabs' commitment to being a true partner, one that can be counted on in terms of product, pricing and performance," said JP Carney, COO of Revolabs. "We are pleased that Crestron, Hitachi, and AVTEQ have joined others, such as Polycom and Biamp® Systems, as our business partners."

About Hitachi

Hitachi Home Electronics (America), Inc., Business Group, subsidiary of Hitachi America, Ltd., markets LCD projectors, interactive panels and whiteboards and security and observation system products through value added resellers, system integrators, distributors and OEM.

Hitachi has a unique position in the marketplace by manufacturing and developing its own core technologies to provide consumers and businesses with optimal product performance in each of Hitachi's product categories. For consumer and business products, visit www.hitachi-homeelectronics.us
